

Coming Summer 2024

New EBT Chip EMV/Tap Cards

You will be receiving a new EBT Chip EMV/Tap card in the mail. The new card will have some updated security features to help reduce instances of fraud and stolen benefits.

FRONT OF EBT CARD

NEW FEATURE

CHIP – A small microchip embedded in the card.

When the EBT card is inserted in the POS device, the chip will generate a **special code** that can only be used **for that transaction**.

NEW FEATURE

“Tap to pay”

Make a purchase by **holding or tapping** the card on a **contactless enabled card reader**.

All Personal Information Moved to the Back of the EBT Card

- An **Expiration Date** has been added.
- Statewide Unique Identifier (SUID).
- A **Card Security Code (CSC)** which is a **three (3) digit security code** used to complete some online purchases has been added.

BACK OF EBT CARD

For assistance with your new card, please use the **Client Customer Service Number** located on the back of the card:
1-877-328-9677

Examples

1 Tap to Pay

2 Insert Chip

3 Magnetic Stripe / Swipe

Some EBT retailers may not accept chip or tap features at this time. Please try to use chip or tap feature first, and then use the magstripe if prompted.
