Ventura, CA 93009

SUBJECT: Receive and File Report of Investments, Including Market Values for Investments for the Month Ending July 31, 2020.

RECOMMENDATION: Receive and File

FISCAL/MANDATES IMPACT: None

DISCUSSION:

This report covers the one-month period ending July 31, 2020.

The **average daily portfolio balance** for July was \$2.632 Billion. I expect the average daily balance to shrink to \$2.4 Billion by the end of September, as tax revenue dries up and pool participants withdraw to meet cash flow needs.

Beginning July 1, 2020, the annualized percentage yield on the portfolio will be reported net of the administrative fee, estimated at 6 basis points. The net **annualized percentage yield** for July was 1.233%, another decrease from June. There were no additional rate cuts by the Federal Open Market Committee and although most of the volatility has gone out of the interest rate market, yields continue to decline.

In July, the portfolio's **net percentage yield continued to exceed all three benchmarks**, shown at the far right of Exhibit 5. Another noteworthy data point is that over the last several months, all three of our benchmarks have shown a clearly sharper rate of decline than has our pool. The line graph added to Exhibit 5 makes it easier to see the separation and the trend. The separation between the yields of similar pools is "alpha", which is the measure of gain produced by the efforts of management. As I look at Exhibit 5, I would say that the percentage

yield of the Wells Fargo Heritage Fund has probably already bottomed out at close to 0.50%, while the others, including ours, will continue to drop so long as interest rates do not rise significantly.

Going forward, if the current portfolio investments were all held to maturity, the portfolio's **approximate yield to maturity** is 1.24%, a significant decline from June of 14 basis points. Since none of the many July investments shown on Exhibit 2 produce a yield that high, the portfolio's percentage yield will continue to decline. If the interest rate market truly stabilizes at its current levels, our portfolio's approximate yield to maturity and annualized percentage yield may be as low as 1.15% in the report for August, which will be delivered in October.

The **total net earnings** for July were \$2.891 Million, a decrease from June that reflects the declining percentage yield and the declining pool size. Exhibit 7 shows the repetitive seasonal pattern that has existed for several years, although this decline is steeper.

The **weighted average days to maturity** rose slightly to 309 days. The interest-rate sensitivity measure of **effective duration** rose slightly to 0.565. Both numbers reflect the purchase of some longer-term instruments to mitigate the investment risk inherent in very short-term pools.

The **three largest sectors**, by percentage, were: Commercial Paper (20.77%); Government Agencies (20.55%); and Medium-Term Notes (19.45%). The **three largest issuers** by percentage, were: Federal Farm Credit Bureau (10.85%); Toyota Motor Credit Corporation (8.88%); and International Bank Reconstruction and Development (7.74%). The **three highest-yielding sectors**, by annualized percentage yield, were: Municipal Bonds (1.560%); Supranationals (1.490%); and Corporate Medium Term Notes (1.360%).

The portfolio has been managed with the stated objectives of safety, liquidity, and earning a competitive return, as outlined in the Statement of Investment Policy. In striving to maintain **the primary objective, safety of principal**, the County of Ventura has continuously maintained a rating of AAf/S1+ by Standard & Poor's, the highest rating given by that agency, and re-affirmed in December 2019. The rating reflects S&P's opinion that the portfolio is well-managed, credit-worthy, well-diversified, and has a low sensitivity to interest rate variations. Regarding **the secondary objective of maintaining sufficient liquidity** to meet cash flow needs, the portfolio maintains significant cash reserves in the County's bank, as well as significant holdings in LAIF and CalTrust. The portfolio has the ability to meet its participants' expenditure requirements for the next six months, pursuant to a daily study of projected cash flows. All of the portfolio's assets have a well-developed resale market, although of course it is our policy not to sell. **Earning a competitive rate of return** is reflected by our performance against our benchmarks, even though they each have less restrictive investment policies than ours, and either have no S&P rating like LAIF or a lower S&P rating like CalTrust.

The portfolio has been managed for several months on the assumption that monthly yields will decline. The Investment Work Group has already switched its focus to the challenges of

investing in a declining market without approaching the boundaries imposed by our Statement of Investment Policy and by the Standard and Poor's ratings team. We are maintaining a larger cash balance as a liquidity hedge against possible withdrawals by pool participants if State payments are delayed.

This letter has been reviewed and approved as to form by the County Executive Office, the Auditor-Controller's Office, and County Counsel.

Please contact me at 805-654-3726 if you have any questions or require further information regarding this item.

Sincerely,

STEVEN HINTZ
Treasurer-Tax Collector
