County Government Center
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: Discuss and File Report of Investments, Including Market Values for Investments for the Month Ending April 30, 2015.

RECOMMENDATION: Discuss and File

FISCAL/MANDATES IMPACT: None

DISCUSSION:

The average daily portfolio balance for the month of April was \$2.3 billion. The annualized yield for the month of April was .407%. The weighted average days to maturity increased from 241 days to 263 days. The total net monthly earnings for April were \$779,000. The portfolio has been structured to satisfy the anticipated cash flow needs of the participants and to accommodate the anticipated earnings apportionments. The investment practices and portfolio holdings are in compliance with the investment policy.

The portfolio has been managed with the stated objectives of safety, liquidity and earning a competitive rate of return, outlined in the Statement of Investment Policy. In striving to maintain the primary objective, safety of principal, the County portfolio has received a rating of "AAAf" by Standard & Poor's (S&P), the highest possible ranking given by the agency. Regarding the secondary objective, maintaining sufficient liquidity to meet cash flow needs, the portfolio is rated "S1+," also the highest ranking given by S&P. In light of the first two objectives, the portfolio has on balance outperformed its benchmarks, satisfying the final objective, that of earning a competitive rate of return.

The April portfolio balance is the highest ever, but will drop gradually through the summer. At the time of the writing of this report (27 May) the estimated annualized yield for May will be +/- 0.44, a level at which it is likely to stay until there is movement in the interest rate market. Going forward, the fund is invested in instruments which will yield +/- 0.47 to maturity.

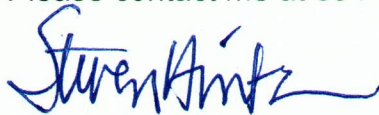

The Ventura County investment fund is a fixed-income, interest-rate-sensitive portfolio with no direct exposure to equities, commodities or global markets. Accordingly, this report will more specifically focus on factors related to U.S. interest rates.

The short-term interest rate market in the United States is dependent on the actions of the Federal Open Market Committee. The most recent report of the FOMC suggests it has stepped back from its previously stated intent to allow interest rates to rise in mid-2015. The FOMC perceives the national economy as having gained strength, but with some cautions based on relatively high rates of non-participation in the labor force and continued slow growth in consumer spending. Inflation in both prices and wages remain well below the guidelines mentioned by the FOMC, and commentators are no longer predicting a mid-summer increase in rates. I continue to regard this as a particularly good time to stay short, liquid, and conservative, well within the boundaries of our Statement of Investment Policy.

Accordingly, it is my intent to continue to manage the portfolio based on the cautious assumption that interest rates within our horizon will rise gradually, if at all. While we will use commercial paper and Yankee certificates of deposit to manage the anticipated cash flow needs of the fund participants, we will only seek out higher-yielding instruments with maturities over one year on a very limited basis. I do not expect the fund's reported yield to rise above 45 basis points (0.45%) during the next six months, even if interest rates begin to rise. The rise in the fund's yield will be gradual, but not indiscernible, if the interest rate market follows its predicted course.

This letter has been reviewed and approved as to form by the County Executive Office, the Auditor-Controller's Office, and County Counsel.

Please contact me at 654-3726 if you have any questions regarding this item.

Steven Hintz
Treasurer-Tax Collector
