Ventura County Board of Supervisors
County Government Center
800 South Victoria Avenue
Ventura, CA 93009

SUBJECT: Discuss and File Report of Investments, Including Market Values for Investments for the Month Ending March 31, 2013.

RECOMMENDATION: Discuss and File

FISCAL/MANDATES IMPACT: None

DISCUSSION:

The average daily portfolio balance for the month of March amounted to \$1.8 billion. The portfolio yield for the month of March was .50%. The weighted average days to maturity decreased 22 days to 274 days. The total net monthly earnings were \$769 thousand. The portfolio has been structured to satisfy the anticipated cash flow needs of the participants. The investment practices and portfolio holdings are in compliance with the investment policy.

The portfolio has been managed with the stated objectives of safety, liquidity and earning a competitive rate of return, outlined in the Statement of Investment Policy. In striving to maintain the primary objective, safety of principal, the County portfolio has received a rating of AA Af by Standard & Poor's, the highest possible ranking given by the agency. Regarding the secondary objective, maintaining sufficient liquidity to meet cash flow needs, the portfolio is rated S1+, also the highest ranking given by S&P. In light of the first two objectives, the portfolio has on balance outperformed its benchmarks, satisfying the final objective, that of earning a competitive rate of return.

The Ventura County investment fund is a fixed-income, interest-rate-sensitive portfolio with no direct exposure to equities, commodities or global markets. Accordingly, this report will more specifically focus on factors related to U.S. interest rates.

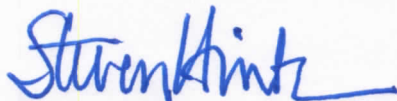

Congress passed a continuing funding resolution for the federal government in late March, valid until mid-September 2013. The federal debt ceiling limit expires in mid-May; and although the cap will surely be increased, the debate injects continuing uncertainty into the financial markets.

The minutes of the late-March Federal Open Market Committee meeting have been released. The minutes reflect continuing debate among the members on the issue of continuing the Fed's buy-back program of federal debt instruments. Any serious consideration of ending the program was overtaken by unfavorable employment reports and suggestions that the modest economic growth mentioned in previous reports has weakened even further, to less than 2%. The economic reports even emit the faintest whiff of a possible deflationary tendency later in 2013. The interest rate market was further weakened by the decision of Japan's central bank to take actions to hold down its already low interest rates, the principal effect being that buyers shifted to U.S. instruments and drove the interest rate on federal instruments to their lowest levels of the year.

Accordingly, it is my intent to continue to manage the portfolio based on the cautious assumption that interest rates will not appreciably rise in the next several months. Although we will continue to use commercial paper to manage the anticipated cash flow needs of the pool participants, we will seek out higher-yielding investments maturing in the 12 to 18 month time period, as appropriate. Still, it is reasonable to expect that the reported yield will continue to decline as long as interest rates are being held down.

This letter has been reviewed and approved as to form by the CEO, the Auditor-Controller, and County Counsel.

Please call me at 654-3726, if you have any questions regarding this item.

Steven Hintz
Treasurer-Tax Collector
