SUBJECT: Discuss and File Report of Investments, Including Market Values for Investments for the Month Ending November 30, 2012.

RECOMMENDATION: Discuss and File

FISCAL/MANDATES IMPACT: None

DISCUSSION:

The average daily portfolio balance for the month of November amounted to \$1.6 billion. The portfolio yield for the month of November was .67%. The weighted average days to maturity increased 49 days to 296 days. The total net monthly earnings were \$ 884 thousand. The portfolio has been structured to satisfy the anticipated cash flow needs of the participants. The investment practices and portfolio holdings are in compliance with the investment policy.

The portfolio has been managed with the stated objectives of safety, liquidity and earning a competitive rate of return, outlined in the Statement of Investment Policy. In striving to maintain the primary objective, safety of principal, the County portfolio has received a rating of AAf by Standard & Poor's, the highest possible ranking given by the agency. Regarding the secondary objective, maintaining sufficient liquidity to meet cash flow needs, the portfolio is rated S1+, also the highest ranking given by S&P. In light of the first two objectives the portfolio has on balance outperformed its benchmarks, satisfying the final objective, that of earning a competitive rate of return.

The month of November was completely dominated by politics. The election finally occurred and discussions began to address not only the long-term economic challenges the country faces but also the immediate consequences of the "fiscal cliff". The fiscal cliff, a set of tax hikes and spending cuts, will occur automatically if Congress does not act before the end of the year. The consequences of no action on the fiscal cliff have been widely estimated to risk a deceleration of the economy with the possibility of tipping it back into recession. Discussions are ongoing but positions suggest that there is still a lot of work to be done to develop a workable solution.

While politicians wrestle with a problem of their own making the economy appeared to notice. In the Beige Book, the report produced by the Fed's staff that gives the broadest assessment of the overall economic condition, the Fed provided these observations of the economy:

- Economic activity expanded at a measured pace with slowdowns in the northeast due to hurricane Sandy
- Consumer spending grew at a moderate pace
- Manufacturing weakened on balance
- Residential and commercial real estate showed slight gains
- Travel and tourism varied by region of the country
- Non-financial services also differed by region with a few pockets of robust demand noted for professional, scientific and technical services
- Banking and financial services experienced higher demand for home mortgage and auto loans
- Agricultural conditions were mixed with drought in some areas and solid production in others
- Employment increased in most areas though wage and price pressures remained subdued

Economic reports issued during the month were consistent with the Fed's take on the economy. The unemployment rate edged higher to 7.9% while non-farm payrolls increased by 171,000. Home sales and housing starts increased as did factory orders and construction spending. Consumer confidence measures were also reported up. On the other hand, several reports were weaker. Industrial production, capacity utilization, retail sales and personal spending were all lower.

As uncertainty over the fiscal cliff developed interest rates across the yield curve moved a little lower. Short-term rates were down 2 to 5 basis points while long-term rates were lower by 5 to 10 basis points.

Given the current interest rate environment we anticipate the County's yield to drop modestly. Further, we continue to seek investment opportunities in order to optimize earnings (U. S. Treasury Market graph attached).

Attached is a listing of market values provided by our custodian, Wells Fargo Bank, for all investments for the month ending November 30, 2012. GASB Statement no. 31 states that variances between the cost of investments and the fair value of investments shall not be considered budgetary resources or uses of resources unless the value of investments is permanently impaired because of decreased issuer creditworthiness or it is determined that the Treasurer be unable to hold investments to maturity.

The following spreadsheets are also attached:
