**SUBJECT:** Discuss and File Report of Investments for the Month Ending  
October 31, 2010, Including Market Values for Investments for the  
Month

**RECOMMENDATION:** Discuss and File

**FISCAL/MANDATES IMPACT:** None

**DISCUSSION:**

The average daily portfolio balance for the month of October amounted to \$1.7 billion. The portfolio yield for the month of October was 1.22%. The weighted average days to maturity increased 23 days to 351 days. The total net monthly earnings were \$1.7 million. The portfolio has been structured to satisfy the anticipated cash flow needs of the participants. The investment practices and portfolio holdings are in compliance with the investment policy.

The portfolio has been managed with the stated objectives of safety, liquidity and earning a competitive rate of return, outlined in the Statement of Investment Policy. In striving to maintain the primary objective, safety of principal, the County portfolio has received a rating of AAf by Standard & Poor's, the highest possible ranking given by the agency. Regarding the secondary objective, maintaining sufficient liquidity to meet cash flow needs, the portfolio is rated S1+, also the highest ranking given by S&P. In light of the first two objectives, the portfolio has on balance outperformed its benchmarks, satisfying the final objective, that of earning a competitive rate of return.

As the Federal Reserve prepares to embark on another round of "quantitative easing," where the Fed buys securities from the market for its own account, the bond market tended to move sideways while equities and commodities moved higher. In large part, this was due to the expected negative impact on the value of the dollar relative to other currencies and the concern that inflation may be a longer-term consequence.

The economic data released during the month had some positive information and is beginning to suggest that we may have seen the worst of this economic cycle, though we still have a way to go. In the report by the Fed's staff describing the overall

economic environment, called the "Beige Book," the Fed made these observations of the economy:

- National economic activity continued to rise, though at a modest pace
- Manufacturing activity continued to expand, with production and new orders rising
- Demand for nonfinancial services was stable to modestly increasing
- Consumer spending was steady to up slightly, though purchases were mostly limited to necessities and nondiscretionary items
- New vehicle sales held steady
- Activity in the travel and tourism sector picked up
- Housing markets remained weak
- Conditions in commercial real estate were subdued and construction was weak

While economic activity appears to be stabilizing and no expectation that the Fed will be raising rates any time soon, the short end of the bond market moved sideways. Long-term rates rose 15 to 30 basis points on concern that once the economy gets going inflation may reappear.

Given the current interest rate environment, we anticipate the County's yield to drop modestly. Further, we continue to seek investment opportunities in order to optimize earnings (U. S. Treasury Market graph attached).

Attached is a listing of market values provided by our custodian, Wells Fargo Bank, for all investments for the month ending October 31, 2010. GASB Statement No. 31 states that variances between the cost of investments and the fair value of investments shall not be considered budgetary resources or uses of resources unless the value of investments is permanently impaired because of decreased issuer creditworthiness or it is determined that the Treasurer be unable to hold investments to maturity. Also, attached is a separate listing of the transactions for the month of October.

The following spreadsheets are also attached:
